2301 SW 12th Street
Lincoln, Nebraska 68522

Detail-oriented graphic designer/front-end web developer combining research, concepting, and creativity to solve problems for clients with professional and distinct outcomes.

WORK EXPERIENCE

Owner, Web Developer & Designer

Fighting Fawn LLC | Lincoln, Nebraska

June 2021–Present

Design and develop custom websites in WordPress CMS, using modern web standards and best practices for accessibility. Perform quality analysis on websites for browser compatibility, site speed, and responsiveness. Design logos and brand guidelines for small businesses and non-profits for brand consistency. Streamline content creation for clients and provide training for their website dashboard.

Front-End Web Developer

Firespring | Lincoln, Nebraska

April 2019–Present

Developed themes and custom websites on a small team, regularly assuming responsibilities of lead developer and quality assurance. Partnered with designers and project managers to identify potential issues and construct solutions which balanced the client's goals with the constraints of the CMS. Prioritized improvement of development framework to increase team efficiency and to meet WCAG standards.

Freelance Graphic Designer

Lincoln, Nebraska

September 2013–Present

Produced user-centered print designs for various non-profit clients, communicating with team members to ensure the results met group objectives. Designed indoor and outdoor banners and signs to suit client needs. Worked one-on-one with clients to create logos for business identities. Designed, developed, or maintained websites for local clients both independently and within a small team.
